***Response to Arguments***

Applicant's arguments filed 5/29/2008 have been fully considered and they are persuasive.

***Allowable Subject Matter***

Claims 27-52 are allowed.

Claims 1-26 are cancelled.

The following is an examiner's statement of reasons for allowance:

Non of the cited references teach or suggest "for producing a flow of synthetic images by combining three-dimensional geometric shapes with textures of two-dimensional images using a data processing unit comprising a motherboard; a graphic board for rendering and displaying a scene, and comprising a 2D/3D processing acceleration processor, and a memory zone comprising a work buffer and a texture memory; and acquisition means for acquiring, in real time, video images in a video buffer; and tracing said scene by creating visual interactions between said flow of synthetic images and at least a flow of video images; and performing a specific rendition of said scene by copying, upon each rendering of said scene, said video buffer into said memory zone of said graphic board; and tracing said synthetic images into said memory zone of the graphic board, thereby improving the quality of said scene and reducing the processing time without employing expensive proprietary data processing units" as recited in claims 27 and similarly in 40.

Claims 28-39; 41-52 are dependent to claims 27, and 40 respectively, therefore they are allowable with similar reasons as set forth in claims 27 and 40, above.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
